

Improving Odds to Win the Lottery: All Lotteries Are Biased

By Joseph Edward Brierly

Createspace, United States, 2011. Paperback. Book Condition: New. 274 x 208 mm. Language: English . Brand New Book *****

Print on Demand *****.Early in Dr. Brierly's career as a mathematician doing operations research for the US Department of Defense the author acquired an interest in investigating ways to optimize winning games of chance. He recognized that every gambling game offers a potential for applying probability and statistics to optimize bets. His first interest in this regard was devoted to picking winners at the harness horse races. After several years the author developed a computer system that essentially simulated a horse race based on race program data. He applied the simulation regularly for twenty years making a profit of 30 to 50 percent on bets every year. A future book will be offered that gives information on the author's harness race picking software. In the 1980s Dr. Brierly decided that he would write a computer program that gave advantage for winning lotteries. He invented and programmed a one-of-a-kind algorithm that finds the bias in any lottery based on its past outcomes. The lottery program titled BESTLOT underwent careful development until it reached perfection. No one has an algorithm that...

Reviews

This publication may be really worth a go through, and a lot better than other. It really is written in simple terms and never difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Natalie Abbott**

This book will not be simple to get going on reading but extremely exciting to read through. Yes, it can be playful, still an interesting and amazing literature. I am very easily could possibly get a delight of reading a written book.

-- **Rene Olson**
