Brand New Book ***** Print on Demand *****.The Green Revolution Delusion is a fictional depiction of a real life drama that is playing out daily where ever industrial agriculture is practiced. In two generations agriculture has been changed radically. What was once a biological process driven by sunshine and rainfall and a prime generator of wealth has become, in many cases, an unsustainable industrial process dependent upon ever increasing inputs of energy and capital. Aside from the financial aspects, agriculture practiced in the industrial mode is inherently wasteful of natural resources; soil, water and energy are consumed in untenable amounts while producing pollution of soil, water and food stuffs. What was once a very good way to live and raise a family has become an occupation filled with stress and outright danger. In far too many cases, the wholesomeness of our food supply has taken second place to the needs of industry. These situations do not have to continue; there are methods that can produce food and fiber in the quantities needed in ways that are ecologically, financially and sociologically sound. One purpose of the book is to present options to the methods and practices causing the most damage that are feasible in the real world. The Green Revolution Delusion is a portrayal of some of the real and very disturbing problems of modern agriculture. Damage is being done to farm families, to the environment and to human health. The book is not a doom and disaster tirade but rather an attempt to explain why the conventional wisdom - that we must adopt all of the current toxic technology: the confined animal feeding operations, the genetically modified organisms and the chemical fertilizers and pesticides in...
