Springer. Paperback. Book Condition: New. Paperback. 378 pages. Dimensions: 9.3in. x 6.1in. x 0.9in. Interactive Distributed Multimedia Systems (IDMS) and Protocols for Multimedia Systems (PROMS) have been two successful series of international events bringing together researchers, developers, and practitioners from academia and industry in all areas of multimedia systems. In 2002, for the first time, these two workshops were held jointly, in what we hope was the first of a new series of challenging and topical international workshops. IDMS/PROMS 2002 contributed to scientific, strategic, and practical advances in the area of distributed multimedia applications, protocols, and intelligent management tools, with emphasis on their provision over broadband networks. Along with tutorials, regular papers and technical demonstrations, IDMS/PROMS 2002 resulted in high-quality original work. The areas of interest of IDMS/PROMS cover mobile multimedia systems, multimedia middleware, multimedia communication protocols, quality-of-service issues, resource management, next-generation Internet, active and programmable networking for multimedia applications, multimedia-specific mobile agents, multimedia distribution and transport, multimedia traffic engineering, multi-

## Reviews

*It is one of the most popular publication. It really is written in easy words and not difficult to understand. You are going to like how the author wrote this book.*
