DEVELOPMENT OF MATHEMATICS 1900-1950

Book Condition: New. Publisher/Verlag: Springer, Basel | This is a fastidious study documenting the evolution of mathematics during the first half of the twentieth century. It has grown out of a colloquium organized by the Luxembourg Mathematical Society which was held at Château de Bourglinster in June 1992. An exacting chronology ("Guidelines 1900-1950") marks key events in the development of mathematics, and a rich range of topics are addressed by some of the century's most eminent mathematicians. Contributors include J.L....

Reviews

This ebook is great. It is definitely basic but shocks from the 50 percent of your publication. Its been printed in an exceedingly basic way and it is only right after i finished reading this book where basically changed me, modify the way in my opinion.

-- **Mckayla Ritchie**

This is the finest book i have got study right up until now. I am quite late in start reading this one, but better then never. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Keanu Johns**

This is the finest book i have read until now. It is filled with wisdom and knowledge You can expect to like just how the author compose this ebook.
