Brand New Book ***** Print on Demand *****.Excerpt from The Proceedings of the Linnean Society of New South Wales, Vol. 60: For the Year 1935, With Nineteenth Plates and 417 Text-Figures Another decade has passed in the history of the Society, which now enters its sixty-first year. Since the celebration of the Society's Jubilee ten years ago there have been many changes - the most outstanding in the way of achievement perhaps being the co-operation with the Royal Society of New South Wales and the Institution of Engineers, Australia, which resulted in the building of Science House, now regarded by a number of the scientific and professional institutions of Sydney as their permanent home. During the same decade there have been startling changes financially, but the Society, in spite of one or two misfortunes, appears to have safely negotiated the worst of the bad - times chiefly as a result of the conservation of most of its surplus income in the prosperous years before the depression. We may justly be proud of the amount and quality of the research work carried out by members, which is placed on permanent record in the Proceedings, of which the last ten volumes will compare favourably with those of any previous decade in the Society's history. The concluding part of Volume lix of the Society's Proceedings was issued in December. The complete volume (447 plus lxiv pages, nineteen plates and 351 text-figures) contains thirty-six papers from twenty-seven authors, five papers being by Linnean Macleay Fellows and three by the Macleay Bacteriologist. Exchanges from scientific societies and institutions totalled 1,795 receipts for the Session, as compared with 2,084, 1,866 and 1,703 for the three preceding years....
