Mathematician, philosopher, codebreaker, a founder of computer science, and the father of Artificial Intelligence, Turing was one of the most original thinkers of the last century - and the man whose work helped create the computer-driven world we now inhabit. Or did persistent persecution drive him to take his own life? 'Alan Turing: Unlocking the Enigma' seeks to find the man behind the science, illuminating the life of a person who is still a shadowy presence behind his brilliant achievements. David Boyle's work...
